

Checklist for Parents & Students

I am so excited to be on this homeschooling journey with your students this year. Science will be interactive, lab driven, and student led.

The main difference you will notice this year is that we will be doing portfolio grading. This is new to PRA, so please take time to familiarize yourself with the attached documents.

I've included a handy checklist for you to ensure you understand and are ready for our first class. ***Please be sure to have your Student Portfolio completed prior to class on Tuesday.***

Today:

- Check out your science book
- Read through the Portfolio Example

At Home:

- Read Syllabus
- Read Portfolio Handbook for Parents and Students
- Read through Student Portfolio Worksheets
 - Don't worry too much about the details of these worksheets as students will be learning and using these documents in class. **DO NOT LOSE THESE DOCUMENTS – THEY ARE INCLUDED IN YOUR NOTEBOOK**
- Compile notebook in the order requested in the Handbook for Parents and Students
